```
I know a place that we can go
And you can get back on your feet boy
Somewhere I know we all want to go
When the heat is on
No one will believe us when we'll tell them what we've seen
But baby I need ya, and no it's not a dream
Baby in your dreams
Tell me bout your dreams and where your mind goes
Drifting nightly
High or low I wan it all
No matter what it comes down to
No one will believe us when we'll tell them what we've seen
But baby I need ya, and no it's not a dream
Baby in your dreams
```
