

# Daylight

Takida

A-ah  
A-ah  
Feel my heartbeats  
Pounding through the walls  
Sweaty palms and  
Heartache, do you know, I  
Sober up for a while  
Then I see you close, you're my daylight  
Your name I've been calling out, calling out, sitting here  
I hope you still feel alive, feel alive like I do right  
Now, we're breaking out  
Into the night  
Your eyes cut like a knife  
I lose myself while  
I give you all I have  
Please, bring me to life  
Show me heaven  
I sober up for a while  
Be my soul inside  
I'll treat you right  
You're my haven  
No one stands in our way  
I feel you close, you're my daylight  
Your name I've been calling out, calling out, sitting here  
I hope you still feel alive, feel alive, like I do right  
Now, we're breaking out  
Into the night  
Into the night  
Into the night  
Into the night  
A-  
ah, your name I've been calling out, calling out, sitting here  
I hope you still feel alive, feel alive like I do  
Your name I've been calling out, calling out, sitting here  
I hope you still feel alive, feel alive, like I do right  
Now, we're breaking out  
Into the night
