

Is it right

Takida

Are you still alive?
I thought they'd come for you
Are you still alive?
I heard that you died
And now you come around
Are you still alive?

I use to stare in wall
Believe in me you might fall
Is it really, is it really, is it really you alone

Chorus
Is it right? is it wrong?
What the hell is going on
I don't care I don't mind
Just show me were you are

In good you believe
In evil not in life
And now they send you down

I use to stare in wall
Believe in me you might fall
Is it really, is it really, is it really you alone

Chorus 2x

The sky is falling down
It feels like I'm gonna drown
And everything is shattered
The shape stays the same
Can you here me call your name
And now we're here gathered
What I feel for you
There's nothing you can do

Chorus 2x
