

Are you colder now,
Are you colder than the water?
Is your heart alive?
Your heart is so much older..

You can't go back; soon your heart will be on attack, oh life

You're helpless now,
You can do nothing at all
You wanna change,
Yeah you want to remember it all
It's darker now and,
You think you're all alone..

You can't go back; soon your heart will be on attack, oh life
You can't go back; soon your heart will be on attack, oh life

Let go we'll see you again, oh no,
I'm still your friend,
This time you are through,
You have been to the end..
Let go we'll see you again

Are we seeking life,
Are we makers of pain?
I can hear you cry,
Are you feeling the same?

I can see it now,
Are you leaving today?

I can see it now,
Are you leaving today?

Are we seeking life,
Are we makers of pain?
I can hear you cry,
Are you feeling the same?

Don't think of tomorrow,
Don't think of today..

Don't think of tomorrow,
Don't think of today..

Don't think of tomorrow,
Don't think of today..
