

Stay in the rain

Takida

I don't see it will I ever find,
You always say I got special mind
I never want it to be that way
I count my days from a better time
I feel more certain I feel alive
I never been like I've been today

When your depth comes crawling
I don't wanna go back
I hear your whispers, you calling
I am stuck in time (in time)

My mind is failing on the other side
I'm in denial I don't wanna die
I hope these pills, no , by gone by gone
I feel the strength with my special one,
When I'm with her I'm not ever down
When I'm with you, I'm not ever alone

When your depth comes crawling
I don't wanna go back
I hear your whispers, you calling
I am stuck in time

Stay in the rain, I don't mind I wanna live
Hit by the pain, It's alright I wanna live

Whatever you feel, wherever you go
I'll be there beside you, I never let go

Whatever you feel, wherever you go
I'll be there beside you, I never let go

Stay in the rain, I don't mind I wanna live
Hit by the pain, It's alright I wanna live

Stay in the rain, I don't mind I wanna live
Hit by the pain, It's alright I wanna live

Ooo... Ooo...Ooo...Ooo...
Stay in the rain...
