

Takida - Stay In The Rain

Takida

I don't see it will I ever find, you always say I got
special mind
I never want it to be that way
I count my days from a better time, I feel more certain
I feel alive
I never been like I've been today

When your depth comes crawling, I don't wanna go back
I hear your whispers, you calling, I am syuck in time
(in time)

My mind is failing on the other side, I'm in denial I
don't wanna die
I hope these pills, no , by gone by gone
I feel the strength with my special one, when I'm whit
her I'm not ever down
When I'm with you, I'm not ever alone

When your depth comes crawling, I don't wanna go back
I hear your whispers, you calling, I am syuck in time

Stay in the rain, I don't mind I wanna live
Hit by the pain, It's alright I wanna live

Whatever you feel, wherever you go
I'll be there beside you, I never let go (2x)

Stay in the rain, I don't mind I wanna live
Hit by the pain, It's alright I wanna live (2x)

Ooh.....

.....

Stay in the rain
