

To Have And To Hold

Takida

Your forgiveness is all mine
all you said were lies
your deceiving eyes

Yeah yeah yeah
I'm all out of love
Yeah yeah yeah
For you it's all a blur

You kill my only trust and it hurts
Say goodbye

I cannot breathe, all turns red
My hate for you has grown strong
Deceit, I know what you've said
No more to have and to hold
Hollowhearted, weak soul
You deserve, nothing else
No more to have and to hold

Wicked games are on-line
I know it's on your mind
Downfall everytime
Yeah yeah yeah
I'm all out of love
Yeah yeah yeah
For you it's all a blur

Kill my only trust and it hurts
It hurts. Yes it hurts

I cannot breathe, all turns red
My hate for you has grown strong
Deceit, I know what you've said
No more to have and to hold

No one answers the phone
You're in denial
Now you stand here alone
And you still wondering why
Screaming "There's no one home"
You bleeding
Kill our only trust and it hurts
It hurts
It hurts
It hurts

I cannot breathe, all turns red
My hate for you has grown strong
Deceit, I know what you've said
No more to have and to hold
Hollowhearted, weak soul
You deserve nothing else
No more to have and to hold
