

Talk to You (Lil' Darlin')

Talib Kweli

Let me holler at you

Can I talk to you?

I want you, cuz you make my heart skip the beat that I drum to

I want to be the one you run to, when pain confronts you

You're everything, sometimes I get nervous when I'm in front of you

You can hear it in my voice when I ask you if you comfortable

Look how love do, I'd practice the Art of War for you like Sun Tzu

Come through and arouse you every morning like the sun do

If you blackout and collapse I want to help you to come to

Notice I haven't yet got into what I want from you

I want you to come to when I come through and make you shine like the sun do

I want you to be the valley for my river to run through

You're everything, you send your soul through your lips to my heart

Sweet music will start I want you to be the music of my art

When people try to rip us apart we got to work to stay together

Go through the seasons of love and never change with the weather

This is my wish list, what I want not what I need there's a difference

These days I'm learning that words got power so I'ma be specific

Can I have a talk with you?

Can I make a dream come true?

Can I be in love with you?

Cuz I would if I could

Yeah sunflower

You must live in the infinite blackness that exists when I close my eyes

I see you when I fall asleep, I see you when I dream

Lil' darlin'

Set your soul on fire (lil' darlin')

Be your one desire (lil' darlin')

Lil' darlin'

Can I talk to you? (lil' darlin')

Lil' darlin', lil' darlin'

Can I talk? (lil' darlin')

Can I talk, can I talk, can I?

Lil' darlin' (lil' darlin')

Can I talk to you? (lil' darlin')

Let him talk to you

Set your soul on fire
