

Lost In The Wasteland

Talisman

Comes a time when u feel like u need
A little time away

Got 2 leave this situation
Fix me with a new sedation

Lost in the wasteland - I could be anywhere
Gone in my haven - don't even really care
Lost in the wasteland - I really need 2 elude this nightmare

Got a grip, got control what 2 do where 2 go
A little sanctuary, solitary's all I want 2 know

Take a ride 2 another lifetime
Say goodnight 2 your nasty deadlines

Dim the lights, close your eyes take a drift
Into my blissful garden

Got 2 leave this situation
Fix me with a new sedation
