

Mysterious

Talisman

Girl, what's on your mind?
You got something that's ailing you
I'm dying for your every touch
Your fantasy, if you want me to be

Can't let you go - Can't let you go
It's so mysterious
So let me know - Cause I gotta know
This time it's serious

All the years gone by
Seems I've been walking alone
But now with you by my side
I'll claim your love, show you what I'm made of

Can't let you go - Can't let you go
It's so mysterious
So let me know - Cause I gotta know
This time it's serious

You fill my mind with things to say, yes, you do
I need your love inside of me, inside of me

So where do I draw the line?
Tell me what do you want me to do
Cause I've been waiting so long
If you feel the same, forever keep the flame

Can't let you go - Can't let you go
It's so mysterious
So let me know - Cause I gotta know
This time it's serious

Can't let you go - Can't let you go
It's so mysterious
So let me know - Cause I gotta know
This time it's serious

Can't let you go - Can't let you go
Can't let you go - Can't let you go
