

On My Way

Talisman

Try 2 tell me what i should or should not do
Don't u know that in the end, the result is i'm gone
I'm no longer gonna live by your golden rule
All the compromises got me barely holding on

Now i'm gonna live my life
Showing u what i'm made of
Don't close your eyes till i'm gone

Walk away & don't turn around
Turn away without saying goodbye
I'm on my way
On my way

Crossed the line with all the ways u minced your words
Never understood compassionate humane ways
All u've ever know is you're the only that's heard
There's a new answer 4 a brand new day

Now i'm gonna spend my life
Proving i was so right
Don't bow your head till i'm gone
Walk away & don't turn around
Turn away without saying goodbye
I'm on my way
On my way
Ooohh

Walk away & don't turn around
Turn away without saying goodbye
I'm on my way
On my way

Just walk away...
Just turn away...
Don't turn around...
Just saying goodbye...
This i'm on my way...
This i'm on my way...
