## **On My Way**

Talisman

Try 2 tell me what i should or should not do Don't u know that in the end, the result is i'm gone I'm no longer gonna live by your golden rule All the compromises got me barely holding on

Now i'm gonna live my life Showing u what i'm made of Don't close your eyes till i'm gone

Walk away & don't turn around Turn away without saying goodbye I'm on my way On my way

Crossed the line with all the ways u minced your words Never understood compassionate humane ways All u've ever know is you're the only that's heard There's a new answer 4 a brand new day

Now i'm gonna spend my life Proving i was so right Don't bow your head till i'm gone Walk away & don't turn around Turn away without saying goodbye I'm on my way On my way Ooohh

Walk away & don't turn around Turn away without saying goodbye I'm on my way On my way

Just walk away... Just turn away... Don't turn around... Just saying goodbye... This i'm on my way... This i'm on my way...
