

Wherever, Whenever, Whatever

Talisman

I've seen u at times of deep despair
I've been there through tears of sadness
It pains me 2 view foreseen mistakes
But still I turn my soul away

Wherever u go I'd follow, my heart is
yours 4 the taking
Whenever u need 2 get u
through the sorrow
Whatever u want I'd honour, I live the
love that we're making
Reach out & I'll be there fill your world with colour

Rewind 2 the days we were mere friends
I dreamed of how we'd be with passion
U were so mislead, left 4 dead, without reason
I picked up the pieces once again

Wherever u go I'd follow, my heart is
yours 4 the taking
Whenever u need 2 get u
through the sorrow
Whatever u want I'd honour, I live the
love that we're making
Reach out & I'll be there fill your world with colour

Now I'm here 2 share your laughter
Now I'm here to brighten everyday
I pledge 2 keep the sky singing
4 u the most in every way

Wherever u go I'd follow, my heart is
yours 4 the taking
Whenever u need 2 get u
through the sorrow
Whatever u want I'd honour, I live the
love that we're making
Reach out & I'll be there fill your world with colour
