

Peeling An Orange

Talk Show

Can't stand the grocery store
Are there orchards anymore
Blow up the breakwater
Still water breeds disease

You got what you want
Give us back the trees
If I gotta live here I gotta breathe

Peeling an orange I am expecting great sweetness
Peeling an orange, yes I am very optimistic
Sometimes the acid stings my eyes

Building a house from mud
'cause it's already dead
I think of her when she's smiling
When she alone inside my head

You got what you want,
Give her back to me
If she's gonna be free,
I got a reason for her to be with me
