So Long

Talk Show

Settle down you know, you got a ways to go Moving slowly gets you by Settle down now, you'll be around now After all your flowers die

Trees grow from the silence
Of the earth and never speak
Thoughts that come from
Underneath are pure and never weak

And you have lived for so long You have lived for so long

Have regrets you will, it's only natural Have them till the day you die Having doubts now, you'll come about now Birds always fall before they fly
