

Time It's Time

Talk Talk

Nobody knows how long
Rustling leaves unrhyme
Lullaby breeze unsung
Babel of dreams
Unwinds in memory

As bad as bad becomes
It's not a part of you
And love is only sleeping
Wrapped in neglect

Time it's time to live,
Time it's time to live through the pain
Time it's time to live
Now that it's all over
Time it's time to live,
Time it's time to live through the pain
Now that it's over,
Now that it's over

Kissing a grey garden
Shadow and shade
Sunlight treads softly

As bad as bad becomes
It's not a part of you
Contempt is ever breeding
Trapped in itself

Time it's time to live,
Time it's time to live through the pain
Time it's time to live
Now that it's all over
Time it's time to live,
Time it's time to live through the pain
Now that it's over,
Now that it's over,
Now that it's over

As bad as bad becomes
It's not a part of you
The wicked and the weeping
Ramble or run

Time it's time to live,
Time it's time to live for living
Time it's time to live
Now that it's all over
Time it's time to live,
Time it's time to live for living
Time it's time to live
Now that it's all over

Now that it's over,
Now that it's over

Now that it's over

Now that it's over

Rest your head
