

# Sound of Love

Tamar Braxton

Candles lit, the lights down low  
My body's calling for only yours, yeah.  
You make me feel like I'm the only girl  
It's so indescribable, oh.

Just hold my body and don't ever let go, whoa, oh.  
Just kiss the places that keeps me wanting more

And take me higher love  
And take me 'til I've had enough  
Make me scream I'm all yours  
Cause ain't nothing wrong with the  
Ain't nothing wrong with the  
The sounds of making love  
Making love to you baby

It's me and you, we're all alone  
You, you got me on a tempo I've never known, yeah.  
You make me feel like it's no one in the world  
It's just us tonight, tonight

Just hold my body and don't ever let go, whoa, oh.  
Just kiss the places that keeps me wanting more

And take me higher love  
And take me 'til I've had enough  
Make me scream I'm all yours  
Cause ain't nothing wrong with the  
Ain't nothing wrong with the  
The sounds of making love

I want you to say you love me  
Whisper in my ear you need me  
Can't deal without you  
I'll live if you continue

And take me higher love  
And take me 'til I've had enough  
Make me scream I'm all yours  
Cause ain't nothing wrong with the,  
Ain't nothing wrong with the,  
The sounds of love.

Take me higher love  
And take me 'til I've had enough  
Baby, scream I'm all yours  
Cause ain't nothing wrong with the,  
Ain't nothing wrong with the,  
The sounds of making love.

The sounds of love  
The sounds of love  
The sounds of love  
The sounds of love
