

Words

Tamar Braxton

I wish that words could say
How much I do adore you
I wish that words could say
How much I really need you
I wish that words could say
How you came and turned me inside and out
I wish that words could say
How I want you back in my life

But words are not enough
To say what you mean to me
Words don't express the amount
Of how much I miss you

I wish that words can show you
How much I am sorry

I wish that words
Could make you come back here to my life
Oh, I wish that words could say
How you came and turned me inside and out
I wish that words could say
How I want you back in my life

(2x):

But words are not enough
To say what you mean to me
Words don't express the amount
Of how much I miss you

Oh, wish that you knew
How much you turn me inside and out
I wish that words
Could show how much I need you in my life

But words are not enough
To say what you mean to me
Words don't express the amount
Of how much I miss you
