

# Almost

Tamia

Can you tell me  
How can one miss what she's never had  
How could I reminisce when there is no past  
How could I have memories of being happy with you boy  
Could someone tell me how can this be  
How could my mind pull up incidents  
Recall dates and times that never happened  
How could we celebrate a love that's to late  
And how could I really mean the words I'm bout to say

I missed the times that we almost shared  
I miss the love that was almost there  
I miss the times that we use to kiss  
At least in my dreams  
Just let me take my time and reminisce  
I miss the times that we never had  
What happened to us we were almost there  
Whoever said it's impossible to miss when you never had  
Never almost had you

I cannot believe I let you go  
Or what I should say I should've grabbed you up and never let you go  
I should've went out with you  
I should've made you my boo boy  
Yes that's one time I should've broke the rules  
I should've went on a date  
Should've found a way to escape  
Should've turned a almost into  
If it happened now its to late  
How could I celebrate a love that wasn't real  
And if it didn't happen why does my heart feel

I missed the times that we almost shared  
I miss the love that was almost there  
I miss the times that we use to kiss  
At least in my dreams  
Just let me take my time and reminisce  
I miss the times that we never had  
What happened to us we were almost there  
Whoever said it's impossible to miss when you never had  
Never almost had you

(sometimes I wanna rub ya, some nights I wanna hug ya)  
And you seem to be the perfect one for me  
You (some nights I wanna touch ya but tonight I wanna love ya)  
You're all that I ever wanted  
And you're my everything yes its true  
Boy its hard to be close to you  
My love  
I know it may sound crazy  
But I'm in love with you

I missed the times that we almost shared  
I miss the love that was almost there  
I miss the times that we use to kiss  
At least in my dreams  
Just let me take my time and reminisce

I miss the times that we never had  
What happened to us we were almost there  
Whoever said it's impossible to miss when you never had  
Never almost had you

I missed the times that we almost shared  
I miss the love that was almost there (sometimes I wanna rub ya)  
I miss the times that we use to kiss  
At least in my dreams  
Just let me take my time and reminisce (but tonight I wanna love ya)  
I miss the times that we never had  
What happened to us we were almost there  
Whoever said its impossible to miss when you never had  
Never, never almost had you (but tonight I wanna love ya)
