

Go

Tamia

I sat outside your house today  
Just thinkin' you'll never learn  
It's like the time I packed your things  
And dropped 'em off where you were  
I know you love to wash your car  
So I left it in the lake  
They say the strongest part of love is called hate

(Do you feel like I should)  
Sit around with your touch  
And your smell on my couch  
And your hair in my brush  
I loved you too much

(Do you think that I should)  
Move along, change my phone  
Get it on, I'll be gone  
Treat him wrong 'til the day  
That someone loves me the same way

How am I supposed to feel?  
What exactly should I do?  
I know you're no good for me  
Yet and still I'm lovin' you

I'm must cite these lonely nights  
Beggin' you to do me right  
This time I just don't know  
Heart says stay, mind says go

I knew I heard it in your voice  
Something was wrong with our date  
I feel I didn't have the choice  
My heart was not in the way  
Found out that I'm up in the cut  
Some chick was wearing my face  
You're lucky I'm in a good mood  
Or she'll lay

Do you know how it feels  
Sittin' 'round, smellin' sheets  
Feelin' down, watchin' Heat  
But my friends where you been  
I'm with her again

Do you think that it's cool  
To rock the fool in my house  
I put you out, you come back in  
We fight again, nobody wins  
And baby, you should know that this is it

How am I supposed to feel?  
What exactly should I do?  
I know you're no good for me  
Yet and still I'm lovin' you

I'm must cite these lonely nights

Beggin' you to do me right  
This time I just don't know  
Heart says stay, mind says go

How am I supposed to feel?  
What exactly should I do?  
I know you're no good for me  
Yet and still I'm lovin' you

I'm must cite these lonely nights  
Beggin' you to do me right  
This time I just don't know  
Heart says stay, mind says go

Oh oh oh oh  
Hey, ooh, yeah  
Ooh ooh, ooh ooh  
Ohh

Sometimes you can't let go  
Even when your heart says so  
I have to let you see  
Your love will never be  
?? with me you see  
Can't let you, just don't need  
I tried to love you still  
I now know how it feels

How am I supposed to feel?  
What exactly should I do?  
I know you're no good for me  
Yet and still I'm lovin' you

I'm must cite these lonely nights  
Beggin' you to do me right  
This time I just don't know  
Heart says stay, mind says go

How am I supposed to feel?  
What exactly should I do?  
I know you're no good for me  
Yet and still I'm lovin' you

I'm must cite these lonely nights  
Beggin' you to do me right  
This time I just don't know  
Heart says stay, mind says go

How am I supposed to feel?  
(It says go, go, go)  
I know you're no good for me)  
(Go go, go go)  
I must cite these lonely nights  
(Beggin' you to do me right)  
This time I just don't know  
Heart says stay, mind says go

How am I supposed to feel?  
What exactly should I do?  
I know you're no good for me  
Yet and still I'm lovin' you

I'm must cite these lonely nights

Beggin' you to do me right  
This time I just don't know  
Heart says stay, mind says go
