

Him

Tamia

He gonna like it, I know  
Got something special in for him when he gets home  
I know how to keep it, brand new  
Won't hesitate to switch it up, is what I'm gonna do

Cause I ain't afraid to work it, work it  
Put on a dress and work it, work it  
He gonna see me, work it work it  
All through the night, he gonna like it  
Start with a little, flirtin' flirtin'  
Go 'head and pull the, curtains curtains  
Show him that he de-serves-serves it  
He gonna love it, oh

Give him my best tonight, it's all about him, him  
All of my love inside I'm giving to him, him  
I wanna show him just how much he's really meaning to me  
So as soon as my baby walks in  
It'll be all about him, him, him  
Gotta be all about him, him, him  
It'll be all about him, him, him  
Gonna be all about him, him, him

Full of surprises, that's me  
A woman's gotta have some tricks under her sleeve  
So romantic, I'll be  
And when I'm through with him he'll never wanna leave

Cause I ain't afraid to work it, work it  
Put on a dress and work it, work it  
He gonna see me, work it work it  
All through the night, he gonna like it  
Start with a little, flirtin' flirtin'

Nobody better call my phone  
Cause me and my baby need to be alone, yeah  
And don't you dare knock on my door  
Cause we're gonna keep it going all night long

Give him my best tonight, it's all about him, him  
All of my love inside I'm giving to him, him  
I wanna show him just how much he's really meaning to me  
So as soon as my baby walks in
