

Rain On Me

Tamia

I've been drowning in my own tears
Wasting time running from my fears
When all the while you've been right here
Waiting on me
If I'd told you what I'm going through
You would've let me know just what to do
Now I know the answer lies in you
This is my pain 'cause...

I've been hurt so bad
Sometimes it makes me sad
Would you rain on me
(Don't stop the rain)
I don't understand
This was not my plan
Would you rain on me
(Don't stop the rain)

Sometimes I felt all alone
Nothing or no one to call my own
But you're the only one that would be
Faithful forevermore
Deep down inside my soul
You're the only who really knows
What I need to make me whole
So I can smile again, I
