

# Whispers

Tamia

Yea oooh oooh  
Here we are ..?  
Had a thing so perfect  
I was scared  
I wanted to find something wrong  
So i put you through it  
And i made excuses  
Tried to turn you away  
I knew i was wrong  
Cus when you went away  
Something so strong  
I didn't know until you were gone (oooh i didn't know)

Whisper sweet nothings in my ear  
Tell me all the things that i long to hear (baby u gotta whisper)  
Whisper sweet nothing in my ear  
Let me know that you feel the way i do

Hearing your voice it took me back to the way it should be  
Passions so strong it feels like i'm losing my mind  
You gotta please forgive me  
Yes so i tripped completely  
What can you do  
When love gets hold of you

Cus when you went away something so strong  
And i didn't know until you were gone (ooh i didn't know)

Whisper sweet nothings in my ear  
Tell me all the things that i long to hear (baby u gotta whisper)  
Whisper sweet nothing in my ear  
Let me know that you feel the way i do

Whoa whooa whooa whoa whooa

Oh babe i knew i was wrong  
I need those sweet nothing whispers  
Baby you need to understand  
These feelings so strong  
Right by your side is where i belong  
Ooh i'm on my way home

Whisper sweet nothings in my ear  
Tell me all the things that i long to hear (baby u gotta whisper)  
Baby you gotta whisper sweet nothings in my ear  
Let me know that you feel the way i do
