

Goodnight Song

Tammany Hall NYC

In a night, I'll turn this all around
I'll shut the light and I'll tune out every sound
What's in store won't anymore be on my mind
I'll say goodnight and I'll leave this word behind

Goodnight song,
I guess the stars always had meaning
Goodnight song,
I guess some answers come from dreaming

In a night, I'll see who I've become
Some fears remain and some I've overcome
Rest assured, I'm happier by far
Than years ago when I cursed out every star

In a night, I'll know where my heart lies
And I'll realize what matters most in my mind
