

Chemistry

Tammy Cochran

Sparks were flyin? the day we met
One look and the flame was lit
In this chemistry
Pure and simple chemistry
Right then and there I felt myself fallin?
I heard a voice inside me callin?
Undeniably
Truly, unmistakably
But I?m not fool enough
To call this feelin? love
This is just the wait and see
The findin? out what?s meant to be
Chemistry, a temporary insanity
Lets people like you and me
Take on chances and dream our dreams
And we don?t know
What lies down the road
But, boy, it feels good to me
Ooh, chemistry
You shake my world like an earthquake, baby
One kiss and I go crazy
And I feel it start
A chain reaction down to my heart
Only you can make me feel that way
Do what you do that takes my breath away
Just one more time
And make it last all night
We?ll take it one day at a time
And see what we find
It may soon be love
But for now it got us
Chemistry, a temporary insanity
Lets people like you and me
Take on chances and dream our dreams
And we don?t know
What lies down the road
But, boy, it feels good to me
Ooh, chemistry
Chemistry, a temporary insanity
That lets people like you and me
Take on chances and dream our dreams
And we don?t know
What lies down the road
But, boy, it feels good to me
Ooh, chemistry
Oh, boy, it feels good to me
Ooh, chemistry
