

Long Way Down

Tammy Cochran

I thought I had love once long ago
Just an emotional illusion 'cause it never came close
You left me empty, left me alone
You left me wonderin' if I did somethin' wrong

You said it, didn't mean it
Had me believin' in it
Your words lifted me so high
Now it's a long way down

Words like 'Forever' rolled off your tongue
Sweet sounds but bitter confusion, dreams comin' undone
You left me broken, left me in tears
You left me wonderin' how did I get here'

You said it, didn't mean it
Had me believin' in it
Your words lifted me so high
Now it's a long way down

When I said it, I meant it
I put my whole heart in it

But you said it, didn't mean it
Had me believin' in it
Your words lifted me so high
Now it's a long way down

You said it, didn't mean it
Had me believin' in it
You said it, didn't mean it
Had me believin' in it
