

# If I Ever

Tanita Tikaram

What do you do for fun?  
What do you do when you want fun days?  
I could be just anyone  
I'm happy to smile and mad on Mondays

The world is a better place  
And every time I see your face

If I ever ever ever get through to you  
If I ever ever ever get through to you  
If I ever ever ever get through to you  
If I ever ever ever get through to you, yeah oh

Every time I hear your voice  
Every time I feel you're near to me  
Will you ever make a choice?  
Will you ever be that real for me?

The friendship feeling's fine  
I just want you to be mine

If I ever ever ever get through to you  
If I ever ever ever get through to you  
If I ever ever ever get through to you  
If I ever ever ever get through to you

He comes alive, she comes alive  
He comes alive, she comes alive  
He comes alive, she comes alive  
He comes alive, she comes alive

You can make a madman sane  
You can make the winters warm again  
Promise me you'll never change  
Promise me you'll always stay the same

'Cos the world is a better place  
And every time I see your face

If I ever ever ever get through to you  
If I ever ever ever get through to you  
If I ever get through to you

If I ever ever ever get through to you  
If I ever ever ever get through to you  
If I ever ever ever get through to you  
If I ever ever ever get through to you

If I ever ever ever get through to you  
If I ever ever ever get through to you  
If I ever ever ever get through to you  
If I ever ever ever get through to you

If we ever get together we can always make it better  
If we ever get together we can always make it better  
If we ever get together we can always make it better
