

Make The Day

Tanita Tikaram

If I could make the day
Be just to where I've been
This holding you close
Like a new beginning

If I can say the words
That make you come to me
I'd talk endlessly
I'd talk endlessly

If I can make the sun
Shine on everything we do
I'm hopin that you see
What you mean to me

If I can say the words
That own my tenderness
I'd talk endlessly
I'd talk endlessly

Like you came around last night
You came on just in time
And I never thought that I
Be the one, be the one
to change your mind

If I could make believe
Bring a smile to everyone
By holding you closely
'Till the morning comes

If I can find a way
To be free of everything
I'd talk endlessly
I'd talk endlessly

Like you never know what you find
Just to scared to open your eyes
And I never thought that I
Be the one, be the one
to change your mind
