

# Baby Please Come Back

Tank

Done a lot of lying, bought the places that I've been  
Done a lot of wildn' out, now it looks like it's the end  
'Cuz I didn't think that you'd ever leave  
But now you broke me on down to my knees

Baby please come back  
Said I'm a mess without you can't you see  
Baby please come back

Now when I think about it  
You've been so good... to me  
And I know all your friends  
Tell you jut to get over me  
But I didn't think that you'd ever leave but now  
You left and took a part of me

Baby please come back  
I can't think, I can't shake, I can't take it  
Baby please come back  
This is my tenth message on your phone  
Baby please come back  
Done gone thru 3 bottles of patron  
Baby please come back

Girl I didn't think that you'd ever leave me  
Now I'm checking every car that drives down our street  
I don't care if you with somebody else

Baby please come back  
I'm sittin in the corner talking to myself  
Baby please come back  
They say I'm losing my mind  
Baby please come back  
Polices is standing right outside  
Baby please come back  
I'm dancing to our song by myself  
Baby please come back  
If I can't have you, I don't wany nobody else  
Baby please come back  
Who got my hennessey, I'm just gonna take myself back to sleep  
And maybe she'll come back in my dreams  
Pleast just come back, yeah.
