

Can't Let Love Die

Tank

Can't believe it's morning
The sun ain't even out but I gotta get up
But this ain't a typical morning
See something just don't feel right
Some of your missed calls in my phone
Just got a text saying turn the T.V on
Can't believe what I'm hearing on the news
Tragedy hit last night
It's critical, could take a miracle
How much time is left, no one really knows
Know matter what it's gotta survive
No we can't let love die

We mistreat it
When we need it
I'll do anything to keep you alive
I can't let love die
If I had to, I'd be glad to
Sacrifice my own life
I can't let love die (can't let it die)
Can't let love, can't let love I 3x
Can't let love die

Sorry for taking you for granted
But I wanna make it right
I'm hoping that you hear me
Done a whole lot of damage
But without you my world stands still
So many times all I had to do was care
And when you needed me
I wasn't even there
So now I hear you need a heart to live
If no one gives theirs, I will
It's critical, could take a miracle
How much time is left, no one really knows
Know matter what it's gotta survive
No we can't let love die

We mistreat it
When we need it
I'll do anything to keep you alive
I can't let love die
If I had to, I'd be glad to
Sacrifice my own life
I can't let love die (can't let it die)
Can't let love, can't let love I 3x
Can't let love die

TALKING

It's like without love we just out here on our own so whatever it takes we
Just...

SINGS

Can't let love die
We mistreat it
When we need it
I'll do anything to keep you alive

I can't let love die
If I had to, I'd be glad to
Sacrifice my own life
I can't let love die (can't let it die)
Can't let love, can't let love I 3x
Can't let love die
Can't let love, can't let love I 3x
Can't let love die
