

## If We Go (we Go Down Fighting)

Tank

Do you really believe everything you hear or read  
So easily deceived, there's no excuse for their sheer greed  
You're hot, but not too hot to handle... you're not just what they want you to be  
My feet are solid ground you can't pull the wool over my eyes  
You don't know what I've found I've got you such a nice surprise  
They'll never get my sound they failed but at least they've tried  
You don't own me, you'll never get me...  
If we go, we'll go down fighting, if we go, we'll go down fighting...  
Do you really believe everything you hear or read  
So easily deceived, there's no excuse for their sheer greed  
You're hot, but not too hot to handle... you're not just what they want you to be  
My feet are solid ground you can't pull the wool over my eyes  
You don't know what I've found I've got you such a nice surprise  
They'll never get my sound they failed but at least they've tried  
You don't own me, you'll never get me...  
If we go, we'll go down fighting, if we go, we'll go down fighting...  
You can't see through the lie, when it's in front of you  
You won't get too far, and yes it's true they'll pander every way  
him, good or bad  
Then they'll close your lid or worse, they'll drive you mad, you bastards!  
If we go, we'll go down fighting, if we go, we'll go down fighting...
