

Keep It 100

Tank

Keep it one hundred
It's all on the table eat up if you're able
One hundred
Give another real me
Even if it kills me
One hundred
I never told you lies
Until I fell in love with you ooh
I made up in my mind
It was just to protect you

And now I feel like such a phony
Like I'm not your homie
'Cause if I was
I'd just keep it real
And now you say you wanna know me
Really wanna know me
But after this we gonna see how you feel

If I just keep it one hundred
She'd probably be cool with everything
If I just keep it one hundred
I wouldn't be bout to lose my diamond ring
If I just keep it one hundred
And tell her how to creep on the lawn
She wants the truth but do she really wanna know
If I just keep it one hundred
She'd probably know but I'll never know
Unless I keep it one hundred

I've told so many lies that you won't accept the truth
I've hurt you so many times now your heart is bulletproof

And now I feel like such a phony like I'm not your homie
'Cause if I was I'd just keep it real
And now you say you wanna know me
Really wanna know me
But after this we gonna see how you feel

If I just keep it one hundred
She'd probably be cool with everything
If I just keep it one hundred
I wouldn't be bout to lose my diamond ring
If I just keep it one hundred
And tell her how to creep on the lawn
She wants the truth but do she really wanna know
If I just keep it one hundred
She'd probably know but I'll never know
Unless I keep it one hundred

Girl you gotta speak through my phone I'ma let you know what it is
I ain't blaming no alcohol I'ma just man up for what I did
I told her I had a girl it made her want me more
Next thing I know we up and the sweet rolling all on the floor
When you kept on asking every time I said, nothing love, and I know you knew
I was trying to tell you but I didn't 'cause I knew that you'd say we were t

hrough

I'm glad I got it on my chest but that don't make it cool
That's worth the sentimental way we wanna live with you

If I just keep it one hundred
She'd probably be cool with everything
If I just keep it one hundred
I wouldn't be about to lose my diamond ring
If I just keep it one hundred
And tell her how to creep on the lawn
She wants the truth but do she really wanna know
If I just keep it one hundred
She'd probably know but I'll never know
Unless I keep it one hundred

Keep it one
One with you
Let me keep it one
Keep it one with you
Keep it one hundred
Keep it one
One1 with you
Keep it one
Keep it one with you
Keep it one hundred
It's all on the table eat up if you're able
Keep it one hundred give another real me
Even if it kills me
Keep it one hundred
