

Kill 4 You

Tank

Trying to make you realize
That I wanna love you for life
How can I make you see
Your the only one for me
Things you never had before
I'll give you them and so much more
I will go as far as you need just to make you see
Girl I would kill for you
Steal for you
Girl I would do time for any crime
To prove my life is true
Girl I would kill for you
Steal for you
Girl I would do time for any crime
To prove my life is true
Said he doesn't treat you right
Your marriage is just one big fight
Telling me you wanna be free
I think I know what you mean
He likes to go running at night
I'll make sure that this is his last time
Cause we need him out of the way
So we can be together always baby
Creeping up from behind
With everything intension on taking his life
I caught him slipping my knife is deep
And now it can be you and me
Repeat chorus
Ohh Ooh
What did you tell the police
You gave them my name
You better explain
Now there out there looking for me
I did this for you I thought you wanted me to
I wont go down alone
But I don't have proof you were in this too
Now there's only one thing to do
Your the only witness so I have to kill you
Repeat chorus
Until fade
