

## Some Came Running

Tank

All my life I've been breaking hearts that's what they're for  
I don't know what you done to my head but hell it's sore  
Why should I wear a hat you must've discovered that  
I'm back in the jun again the jun again some came running  
Do I have to go back to stars and put your parts in store  
Smelling like an a la carte dancing on the floor  
See men wearing hats you must've discovered that  
I'm back in the jun again the jun again some came running
