

Some Came Running

Tank

All my life I've been breaking hearts that's what they're for
I don't know what you done to my head but hell it's sore
Why should I wear a hat you must've discovered that
I'm back in the jun again the jun again some came running
Do I have to go back to stars and put your parts in store
Smelling like an a la carte dancing on the floor
See men wearing hats you must've discovered that
I'm back in the jun again the jun again some came running
