

Still At War

Tank

All right... There they stand our fine leaders all,
While they're together... Has any one thought to talk...
There's no plan. Crisis? Not at all their own existence
Relies on a horse to stalk...
While they're backbiting an air strike, like lightning engage!
There's been no peace sittings today... They're still fighting.
.. 'Cause we're Still at War,
Still at War, still fighting, but what are they fighting for
Uncle Sam, this one's too close to call, you're under pressure,
From Israel's wailing wall, insane sad man
Your flag's about to fall the world is indifferent
To your pleas for food for oil hatred inciting
A no-fly zone sitting... engage! It's too late the bombs are away...
They're still fighting...
Cause we're, Still at War... Still at War. Still fighting, but
what are they fighting for?

(2x)

Still At War... Still At War... Let it be so... They're still fighting,

'Cause we're, Still At War. Still At War, still fighting,
But what are they fighting for? [Repeat] Still At War... Still At War...
