

This Means War

Tank

Now living here just ain't good enough for those of you wearing
red ties
Just you breathing makes our leaders rush to the shelters still
watching the skies
I'll feed off your vilest dreams it's not as bad as it seems
It's now or never as I'm left with these mouths to feed
I wanna see all those rivers bleed
Do you know just what this means...war!
They think that we don't know what's going on
With all their satellite ski spies it don't matter where they'r
e coming from
Do we still have to give up our lives?
I'll feed off your vilest dreams it's not as bad as it seems...
Cos it's now or never as I'm left with these mouths to feed
I wanna see all those rivers bleed
Do you know just what this means...war!
This means war, this means war, this means war, this means war
Get out of my way mother...
Don't it seems stupid that we're sitting here and soon there'll
be nothing left
We can't go on pretending that we're unaware and laughing in th
e face of death
I'll feed off your vilest dreams it's not as bad as it seems...
Cos it's now or never as I'm left with these mouths to feed
I wanna see all those rivers bleed
Do you know just what this means...war!
This means war, this means war, this means war, this means war
