

## With Your Life

Tank

They say they can't stop me laughin' (HaHaHa) and that I've gone insane  
Am I on something not to remember my own name I can't hurt nobody (nobody)  
When I'm in this pain  
Cause when they turn out the lights the nightmare begins can't wait another day  
And a lonely year if nothing else I will die in here  
I can't help anybody it's done all myself  
But as long as it makes you happy  
I'll try and kill myself  
With your life you'll pay for this (4x)  
Because you were such a sweet thing  
I couldn't help myself  
Cause you gave me the one thing  
I ain't got from nobody else inside there's nobody something I couldn't hide  
Cause when they found the next body  
Is when they burned me inside as I pray to the holy one  
Despite of my health  
But as long as it will make you happy  
I'll try and kill myself with your life you'll pay for this (8x)  
)

It distresses me to no end  
But I'm still alive  
And you make sure you go straight to heaven  
Cause hell's around the bend  
With your life you'll pay for this (8x)

With your life (4x)

With your life you'll pay for this
