Woman - how many ways can I use woman

Abuse them - verbal assault and then abuse them

They should be grateful - subservient and still be gratefull

You drive me to my concerts, I refuse to pay for trains Complaining's out of order, I'm your only fucking lay Do me service or be smacked, broad, if I don't get my own way

(Hey you, I'd die for you)
I'll drive for you, my baby
I'd do it all for you
(Hey you, I'd die for you)
succomb to all your whims
if you'd just let me in

Demon - you're present in all of my nightmares
I thank god - Vodka, my friend, has been my saviour
Because you left me - mobility is gone, I'm stranded

Give me justice, I'm the mentor, you're the only one to blame Mouth me, sugar, get a shiner, leave you for another dame Doesn't matter, seems you lost out, thank god you are all the game

(Hey you, I'd die for you)
I'll drive for you, my baby
I'd do it all for you
(Hey you, I'd die for you)
succomb to all your whims
if you'd just let me in

Give me justice, I'm the mentor, you're the only one to blame Mouth me, sugar, get a shiner, leave you for another dame

(Hey you, I'd die for you)
I'll drive for you, my baby
I'd do it all for you
(Hey you, I'd die for you)
succomb to all your whims
if you'd just let me in
