

Nine o'clock on channel six
Get the beer and get the chips
Death is live upon the screen
It's reality TV!

New disasters! Don't you miss
All the details - we'll be back right after this
Poisoned children just for you, perverts giving interviews
Rapists do it on the air, sponsored by cosmetic care

Television's your evil eye - cables sputing filthy crud
Television is a pig sty - wallowing in real life mud
Television's your evil eye - wanking off to sex and blood

On patrol with cameras
Gonna make some victims stars
TV vamps, for blood we thirst
Help that man, but shoot him first

Moving pictures full of pain
Voyeurism - wet your ass and fry your brain
Zoom in on the pile of death, close-up of the smashed - in head
Interview the relatives, pay them cash for wet - hot tears

Television's your evil eye - cables sputing filthy crud
Television is a pig sty - wallowing in real life mud
Television's your evil eye - wanking off to sex and blood

Should there be a day of peace
We've our something up to sleeves
Our "assistant" will commit
Any shit to land a hit
