

Secret Order 1516

Tankard

We local brewers have lots of sorrows
Because the global race for energy has reached our home
For many reasons it feels like treason
The government is selling purity for dirty cash

Now is the time for resistance!
Defy the crime! And fight for our liquid gold!
Now is the time to show persistence!
We will decline! Non-toxic must be our goal!

Don't spoil the water underground!
You want to drill? Go frack yourself!
Exploit your shale gas somewhere else!

The Secret Order of 1516
Will keep the brewing forever fine and clean
Foam over fracking is what we demand
Or there'll be riots in every pub of this land
The Secret Order of 1516
Hops, barley, water was always our sole doctrine
The Secret Order 1516

They lust for trillions of cubic meters
Those greedy mining companies devour our land
"Contami-Nation" - is that your nation?
Like pumping poison down into the bowels of the earth?

Now is the time for resistance!
Defy the crime! And fight for our liquid gold!
Now is the time to show persistence!
We will proclaim: Non Toxicity!

Recall your lobbyists at once!
Respect our rights! Go frack yourself!
Enjoy your gnat's piss somewhere else!

The Secret Order of 1516
Will keep the brewing forever fine and clean
Foam over fracking is what we demand
Or there'll be riots in every pub of this land
The Secret Order of 1516
Hops, barley, water was always our sole doctrine
