

# The Beauty And The Beast

Tankard

I take my chances!  
I'm well educated  
I earn good wages  
Mothers-in-law- crave for me  
I take my chances  
My teeth are shiny  
My face is handsome  
There is no doubt about it  
I take my chances!

Last night: a new sensation  
This beauty hit my eyes  
Dressed in the blackest shadows  
A devil in disguise

What can I do to draw your eye's attention?  
What can I do now to make you realize?

The beauty and the beast  
A mystery unrevealed  
The beauty and the beast  
Both hide inside of me  
The beauty and the beast  
Control my life

I got to get you!  
You are a bombshell  
A cute maneater  
A creature of the night-time  
I got to get you  
Fuck for conventions  
Fuck for devotees  
Crushed underneath your high-heels  
I got to get you!

Longing, I'm craving for you  
But you don't notice me  
My shiny life means nothing  
to you, you just won't see

What can I do to draw your eye's attention?  
What can I do now to make you realize?

The beauty and the beast  
A mystery unrevealed  
The beauty and the beast  
Both hide inside of me  
The beauty and the beast  
Control my life  
(2x)

I feel a changing!  
This magic potion  
From fifteen sixteen  
Runs through my boiling veins now

I feel a changing!

I'm so much bolder!  
And yet I hold her  
My blood is running colder  
I feel a changing!

Drinking is our business  
We queue the welfare line  
We spend our days consuming  
Magical beer and wine

What can I do to draw your eye's attention?  
What can I do now to make you realize?

The beauty and the beast  
A mystery unrevealed  
The beauty and the beast  
Both hide inside of me  
The beauty and the beast  
Control my life  
(2x)
