

War Cry

Tankard

Allow me to introduce me
"Predator" is my given name
Sometimes even known as "Reaper"
I don't care 'bout the shady fame

By night (by night), by day (by day)
Controlled from far away

It's death I'm bringing
When rules are gone
Descending out of heaven
I am a loaded gun

War cry! War cry! Payback
War cry! When drones attack
War cry! No time to pray
Neither terrorists nor children
War cry! Will get away

As soon as I leave the hangar
Politics has clearly failed
Justice or immoral murder?
Civil death is the price we'll pay

Airstrike (airstrike), bombs fall (bombs fall)
Damage collateral

It's death I'm bringing
To Pakistan
To targets in Somalia
Also Afghanistan

War cry! War cry! Payback
War cry! When drones attack
War cry! No time to pray
Neither terrorists nor children
War cry! Will get away

War cry! War cry! Payback
War cry! When drones attack
War cry! No time to pray
Neither terrorists nor children
War cry! Will get away

Doomsday! When drones attack
War cry! No time to pray
Neither terrorists nor children
War cry! Will get away
