

We're Coming Back

Tankard

We're coming back, we're coming back
We're coming back to you
We're never gonna go away again
Hold on a little longer, try a little harder
'Til we're arm in arm together to the end

So remember, out there somewhere
You've got a friend, and you'll never walk alone again

Don't get worried, don't get scared
We're fighting to get there
Never doubt we're gonna get through
We're gonna run, we're gonna crawl, kick down every wall
It won't be long we're coming back to you

So remember, out there somewhere
You've got a friend, and you'll never walk alone again

We're coming back, we're coming back
We're coming back to you
We're never gonna go away again
Hold on a little longer, try a little harder
'Til we're arm in arm together to the end

So remember, out there somewhere
You've got a friend, and you'll never walk alone again
