

## Green Grass

Tanlines

Green grass say it's true  
Because I've got my eyes on you  
Don't wait till it's over  
Don't wait till it's over  
Stand on dry land watch it wash away  
Spend a long time watching light of day

Cause there are a lot of waves there  
I don't have a plan  
I don't know why  
Well there are a lot of things here  
I don't understand  
I don't know why

Cause there's a lot of ways there  
I don't have a plan  
I don't know why  
Well there are a lot of things here  
I don't understand  
I don't know why

Green grass sky so blue  
Because I've found something through  
Won't wait till it's over  
Won't wait it's all over

Stand on dry land watch it wash away  
Spend all night waiting for the light of day

Cause there's a lot of ways there  
I don't have a plan  
I don't know why  
Well there's a lot of things here  
I don't understand  
I don't know why

Cause there's a lot of ways there  
I don't have a plan  
I don't know why  
Well there's a lot of things here  
I don't understand  
I don't know why

Cause there's a lot of ways there  
I don't have a plan  
I don't know why  
Well there's a lot of things here  
I don't understand  
I don't know why

Cause there's a lot of ways there  
I don't have a plan  
I don't know why  
Well there's a lot of things here  
I don't understand  
I don't know why
