

Lost Somewhere

Tanlines

You're lost somewhere upon my ...
Got cut out there, you feel like...
And I know where all our road are chosen
They all come back, they all come back
You know them, you know them

Chorus:

I show them, I show them
You know there's an answer
You know that I won't leave without a fight
You know there's an answer
You know that I won't leave without a fight

And I prepared to speak thy words I'm...
You stood and said, you watched that green grass rolling
Be not quite there, down the roads I've chosen
They all come there, they all come there!
You know them, you know them

Chorus:

I show them, I show them
You know there's an answer
You know that I won't leave without a fight
You know there's an answer
You know that I won't leave without a fight

Need some more, need some more, gimme a sign
Need some more, need some more, gimme a sign
Need some more, need some more, gimme a sign
Need some more, need some more, gimme a sign
Need some more, need some more, gimme a sign
