## All To Myself

I want to be I want to be All to myself Take me From this day Save me From the sun ray Some day Something's got to get on my nerves I can't wait for the day That I can let my concerns Go of me, can't you see It's how I feel in my mind I can move, I can hear I can see, why don't you feel me Take me From this day Save me From the sun ray Some day Something's got to get on my nerves I can't wait for the day That I can let my concerns Go of me can't you see It's how I feel in my mind I can move I can hear I can see why don't you feel me Some day Something's got to get on my nerves I can't wait for the day That I can let my concerns Go of me can't you see It's how I feel in my mind I can move I can hear I can see why don't you feel me
