

Coming Undone

Tantric

Well, anywhere I go it's you,
Im not done with you
Tell me what you wanna do
Never been afraid of you
Just because you walk around
Everyone you're talking down
Don't you even make a sound
I will drop you to the ground

Hey you better watch with the stare
I see you coming undone
Come on, come on, come on and get some

Hey you better watch with the stare
I see you coming undone
Come on, come on, come on and get some

Come on and get some
Come on and get some

Well, I will intimidate
To the point that I'm frustrate
Never seen this side of me
Let the anger out of me

Just because ive been reserved
Many things you havent heard
Dosent mean Im not aware
If you push Ill take you there

Hey you better watch with the stare
I see you coming undone
Come on, come on, come on and get some [x9]
