

Come on and get out  
Is there something that you're feeling let out  
Cause there's a price you'll pay and get out  
Won't you get outta here?  
Come on and be free  
From your demons, lay on to me  
So now I feel the pain that you feel  
And it's not getting better

Cause I've been there before  
A soul had came in for  
What does life have in store  
Before I lay  
I lay

Stand up and leave  
I see you sinking deep, deeply  
Don't be afraid of who you want to be  
Just stand and break the weather  
Hope is in your hand  
Don't let this feeling fade if you can  
The hole is not to you is your  
And faith will make it better

Cause I've been there before  
A soul had came in for  
What does life have in store  
Before I lay  
I lay

Lay your head  
Nothing lasts forever  
So don't stress it your head  
The best is yet to come so you should  
Rest your mind  
Looking out the window sill  
That you will find  
The blind if you don't know

Cause I've been there before  
A soul had came in for  
What does life have in store  
Before I lay  
I lay  
I lay  
I lay  
I lay
