

Live Your Life

Tantric

If you live your life
If you live your life this way
It's gonna change
Repeat

Time and time again I cannot
Find the reason why my life is all right
But I just can't stop the pain

Look into your heart
Look into your mind
Look into your soul
Let it go
And you don't know what to say

Run away run away
With the pain
That I told you once
I could not spare
Its only satisfaction now
This time of the year

Run away run away
With the pain
That I told you once
I could not spare
Its only satisfaction was fear

If you live your life
If you live your life this way
It's gonna change
Repeat

Always breaking off
I would forget it away
Trying to run from myself
And at the same time fade away

Never bothered to
Never bothered you
Never bothered me
When I left
And I said what I had to say

Run away run away
With the pain
That I told you once
I could not spare
Its only satisfaction now
This time of the year

Run away run away
With the pain
That I told you once
I could not spare
Its only satisfaction was fear

I told you before
I opened you up
And then you
Shut me down
Repeat

If you live your life
If you live your life this way
It's gonna change
Repeat x5
